

INT. KITCHEN

SALLY and JIM sit at a table looking bored at their breakfast.

SALLY
This breakfast is so *boring*.

JIM
I feel like I'm in North Korea.

SALLY
This bagel is so sad I'm getting suicidal.

CAPTAIN SCIENCE (V.O.)
Don't worry kids, I'll save you!

SALLY AND JIM
CAPTAIN SCIENCE!

CAPTAIN SCIENCE, sporting a DNA logo on their chest and sponsorship logos for MONSANTO, bursts through the wall and poses.

CAPTAIN SCIENCE
Its Captain Science here, to save
you from you mothers awful taste!
New from Monsanto, its GMOatmeal!
The cereal with flavor!

SALLY
GMO foods? I heard they might be
bad for you!

CAPTAIN SCIENCE
Of course not! Take a bite and see
for yourself!

A box of GMOatmeal materializes from a beam of light on the table. The children take a bite.

JIM
Mmm! It takes like bacon!

SALLY
Coconuts and curry!

CAPTAIN SCIENCE
With slight genetic modifications,
you can get the nutrition of
oatmeal with the satisfaction of
not eating grass!

SALLY
I love Sushi-berry!

JIM
I literally cant stop eating!

MOTHER walks in and looks at the audience

MOTHER
I need to know that my children are
getting all the nutrition that they
need.

CAPTAIN SCIENCE
That's why the benevolent
scientists at Monsanto have forged
Brainanas in our brand new organic
kiln!

Mother holds up a banana that is bright red and covered with
tiny pulsing brains. The kids both eat one of the fruits.

MOTHER
Brainanas not only give you the
nutrition to keep you going through
the day, but will give you the
strength of mind to be your best!

SALLY
Math homework is suddenly a breeze!
I'll show those mathletes who's
cool now!

JIM
I think I can see the future!

MOTHER
And its sure a bright future with
Monsanto in it!

JIM
When you stare into the void, the
void stares back!

SALLY
But what if I want to get onto the
sports team? Is there a quick and
easy fix for my crippling lack of
coordination?

CAPTAIN SCIENCE
Of course! Try Monsantos new milk
juice, the milk that makes you feel
like you are juicing!

SALLY drinks a glass of purple liquid.

SALLY

(Deep Voice) I feel invincible!

CAPTAIN SCIENCE

The Monsanto breakfast is a
balanced part of this larger second
breakfast!

Family talks silently and smiles as CAPTAIN SCIENCE
continues.

NARRATOR

(Quickly) Do not eat Monsanto
products if allergic to nuts,
latex, hydrochloric acid or
uranium. Do not chew Brainana
without adult supervision. Do not
eat if pregnant or could become
pregnant. Not for children under
the age of 65.

FAMILY

Thanks Monsanto!
